WORK EXPERIENCE

Java Full Stack Developer Trainee | [QSpiders](#)

August 2025 – Present

- Hands-on experience with full-stack web development, utilizing React.js, Java, and SQL, with a strong focus on problem-solving and application efficiency.

Software Developer Intern | [Codnifyz](#)

November 2025 – December 2025

- Acquired hands-on experience in software development and performance optimization, enhancing Java programming, debugging, and problem-solving skills through real-world development tasks and projects.

Full Stack Web Developer Trainee & Intern | [Corizo](#)

October 2024 – December 2024

- Proficient in full-stack web development using HTML, CSS, JavaScript, Bootstrap, MongoDB, and APIs, with a focus on dynamic, responsive applications.

PROJECTS

Professional Portfolio | [Live Demo](#)

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, and professional profile
- Implemented modern UI components, responsive layouts, and performance-optimized frontend architecture

Stellar AI Chatbot | [Live Demo](#)

- Implemented dynamic message handling, responsive UI, and reusable React components for scalable frontend design

Spotify Clone | [Live Demo](#)

- Developed a music streaming web application clone replicating core Spotify UI and playback experience
- Implemented playlist layout, audio controls, and responsive media components to simulate real-world streaming platforms

Bamboo Blogs | [Live Demo](#)

- Developed a full-stack blogging platform with user authentication, CRUD operations, and database integration
- Implemented secure login, post creation/editing, and persistent data storage to simulate real-world content management systems

Panda eCommerce Store | [Live Demo](#)

- Built a full-featured eCommerce web application with product listing, shopping cart, and user-friendly navigation
- Implemented component-based architecture and responsive design to enhance user engagement and usability

CERTIFICATIONS

- React JS – LetsUpgrade (2025)
- HTML5 – Mimo (2024)
- JavaScript – Simplilearn (2026)

- Tailwind CSS – LetsUpgrade (2025)
- CSS3 – Mimo (2024)
- Git & GitHub – LetsUpgrade (2025)
